Mr. Leo R. DiVita
Assistant Chief Engineer
Metropolitan Sanitary District of Greater Chicago
100 East Erie Street
Chicago, Illinois 60611

Dear Mr. DiVita:

The Agency is requesting the installation of two additional monitoring wells at the 103rd Street and Doty Landfill to fulfill the intent of the Agency approved closure plan. This request is made pursuant to special requirement #4 of the Agency's letter of approval from Thomas E. Cavanagh, dated August 26, 1980. These two new wells are to replace monitor wells #2 and #4 which are continually reported unmonitorable due to low water levels. When plans are approved for installation of these wells, contact the Division of Land Pollution Control for recommendations on well placement and design:

Division of Land Pollution Control
Compliance Monitoring Section
2200 Churchill Road
Springfield, Illinois 62706

In the future, please send all correspondence concerning the 103rd Street and Doty Landfill and the closure plan monitoring requirements to the above address, with a carbon to the Agency's northern regional office at:

Illinois Environmental Protection Agency
Division of Land Pollution Control
1701 First Avenue
Maywood, Illinois 60153

Attention: Ken Bechely

Page 2

The following well designations should be used by MSD in referring to monitoring points in future correspondence.

<u>MSD Designation</u>	<u>Agency Designation</u>
Monitor Well #1	G101
Monitor Well #2	G102
Monitor Well #3	G103
Monitor Well #4	G104
New Well #2	G105
New Well #4	G106

The Agency is requesting a response within 20 days concerning the installation of these new monitoring wells. If you have any questions, please contact me at the above phone number.

Sincerely,

A handwritten signature in cursive script that reads "Mark A. Haney".

Mark A. Haney, Manager
Compliance Sub-Unit
Compliance Monitoring Section
Division of Land Pollution Control
